

## **Triad Math and Science Academy Student Email Acceptable Use Policy**

The use of computer devices, network, and internet access is a privilege extended to students at Triad Math and Science Academy. Our goal is to enable students to extend learning opportunities through the use of the latest technology and innovation. In our efforts to reach this goal, TMSA has created email accounts for all high school students. The guidelines below serve to outline students' responsibilities required to carefully and properly use student email accounts on campus and safeguard the student from misuse or online dangers. Please read the Email/Communication Safety Policy carefully and sign at the bottom. Please note that the student privileges regarding the use of technology on campus may be revoked if a student fails to follow these guidelines.

**Email/Communication Safety:** Email and other online communication services provide opportunities for students, but they require careful use. I will follow the guidelines below when using school computers/student email accounts:

- I will only use an email account at school with the prior permission of a teacher and will get permission from a teacher each time I use my student email account at school. Instant messaging and chat rooms are prohibited.
- I will adhere to all of the guidelines in the acceptable use policy when using school provided computer services at school. TMSA may filter or monitor school provided student online accounts or other school provided computer services regardless of whether the account is accessed from school or another location.

I, \_\_\_\_\_, am a student at Triad Math and Science Academy and have read and understand this contract for student email account usage. By signing this contract, I acknowledge that I have read and understand, and accept the terms of the Student Email Acceptable Use Policy.
